Personal Profile

A Software Developer with a strong knowledge of JavaScript and React gained through taking the initiative to pursue my passion for technology and complete a coding course with SheCodes; enabling me to boost my skills and build projects. Created a fully responsive React web portfolio with a focus on accessibility and search engine optimisation. Eager to build high-quality code and develop my skills to become a full-stack developer, whilst leveraging my previous experience to deliver immense value to your company.

Skills

Front-end:

React, JavaScript, HTML, CSS, Material UI, Bootstrap.

Full-Stack:

AWS, leveraging open APIs, Netlify, GitHub

Soft Skills:

Teamwork, Proactive, Communication, Organisation, Interpersonal skills, Time management and Presentation skills

Experience

Mentee | [Black Valley](#) August 2021

Working with an experienced Developer to learn industry best practices, software development tools, techniques, and the UI design process

[AWS Certified Cloud Practitioner](#) | July 2021

Passed the AWS Certified Cloud Practitioner exam covering the following topics:

- Cloud concepts
- Security and Compliance
- AWS Technology
- Billing & Pricing

[SheCodes](#) | Jan 2021 – April 2021

Key modules: HTML, CSS, JavaScript, API, Bootstrap, Hosting, React

Projects:

[Weather app](#)

A react application using the Open Weather Map API and hosted on Netlify. This app pulls weather information from any city in the world as well as the users current location.

This app features:

- React hooks such as useEffect and useStates
- Multiple API calls to fetch Weather data.

[Dictionary](#)

A react application using a dictionary and image API and hosted on Netlify. This app pulls definitions and images for any word searched by the user.

This app features:

- React hooks such as useStates

- Multiple API calls to fetch definitions and images

Technical Assistant (Oscar Mayer Group) | August 2020 – July 2021

- Worked within a multidisciplinary team to reduce customer complaint costs by 36%.
- Displayed excellent communication and presentation skills, leading weekly meetings dissecting data for internal and external stakeholders.
- Applied excellent customer service skills whilst writing customers letters communicating complaint investigation details and reassuring customers who'd made complaints.
- Remained calm under pressure, completing daily, weekly, and monthly KPI reports to strict deadlines.

Consumer Science Intern (Mondelez International) | July 2018 - July 2019

- Liaised regularly with the R&D and Marketing teams, collaborating on projects involving a large range of brands e.g. Cadbury Dairy Milk and Oreo.
- Exhibited problem-solving skills through managing four 12-person sensory tasting panels, ensuring all panellists' concerns were resolved.
- Attained a consumer-centric mindset ensuring developments made to new and existing products were the best outcome for the customer.
